HS1101 Assessment Statement 2021

Course is endorsable

Year : 11

Course : Health Science Academy

Mrs A Turner

Total Credits : 39

The Health Science Academy is a programme for students considering a health related career. It is particularly beneficial for students wanting some extra support to ensure that they perform strongly in Science in Year 11 and are well prepared for Level 2 Science courses. The course is taught in a medical context. Students do 8 hours of science a week (instead of mainstream 4) therefore the students are required to drop an option. The academy has a strong emphasis on mentoring and building peer relationships so the students learn in a supportive environment. They are introduced to different health careers through having guest speakers in the classroom, field trips to tertiary institutions and practical hands on experiences in class. Prize giving decisions will be made based on markbook entries as of 1.10.21
